## Highlights from the speeches

*"Graduation is a milestone in a longer journey. It is the end of a stage and the beginning of another. It is a moment for celebration but also it is a time for reflection about the value of our international education.*

*You have conquered challenges, surpassed expectations and emerged as remarkable individuals, ready to make your mark on the world.*

*In today's rapidly evolving world, characterised by complex problems and unprecedented opportunities, the skills and knowledge you have acquired during your time here will serve as invaluable assets.*

*You are equipped with the ability to think critically, to approach challenges with creativity, and to embrace the power of collaboration.*

**International Education is a privilege.** However, with the privilege of education comes great responsibility.

*Our A-Level graduates are going to move away from home to live in some cases in a different country. I implore you to remember the values that have been instilled within you. Embrace integrity, honesty and ethical behaviour in all aspects of your lives. Let your moral compass guide your decisions and actions.*

*Also, remember that success is not only measured by individual achievements. It is in the act of helping others to improve, in the service to humanity, that we find true fulfilment.*

*Use your knowledge and talents to make a positive impact on the lives of people around you, especially those less fortunate. **The world needs your compassion, empathy and strong commitment to making a difference.***

*Finally, remember to express gratitude. Gratitude to your families and loved ones who have supported you on this journey.*

*Congratulations Class of 2023! May your journey be filled with purpose, fulfilment and success!"*

Mr Jose Antonio Parra

# Graduation highlights

## Highlights from the speeches

*"And although we held tight to each other, now is our time to grow, to fall apart, and hopefully one day to reunite. The story ends here, today, with your graduation, but 11 stories are about to begin. 11 stories of success and happiness, and a little bit of drama to make the life worth living. We cannot be more excited for you."* Ms Predouli

*"These moments I have recounted are more important than the worldwide pandemic or American tastes in presidents, more important than farcical terrestrial ceremonies or the phenomenon that is Manchester United because there are your movements and I have had the privilege of witnessing them. Always, one of the most enjoyable part of my day was sitting in pastoral and just watching year 11 be year 11, watching your successes and failures, but most of all your warmth"* Mr Evison

*"We are a close group that feels like a family and although that is mainly due to the students a great part of that is due to our tutor. Ms Lila has guided us all the way through our A levels and made sure that we are well prepared for the future. After 12 years of school I can say with confidence that there aren't many teachers who are truly passionate about their students like Ms Predouli does."*  
Anaïs

*"Throughout my years at ISCS m, I looked up to the older students, putting their hard work towards their future. You are all wonderful role models for us. We will for sure miss all the different trips to Spain, Europa Park or the universities in Zurich. We finally survived our finals and can proudly show off our diplomas, which is a truly great achievement."* Ishani

*"We want to say thank you to the teachers and their impressive energy for the students. They really wanted them to discover what they are after, who passionately spent countless hours to be available, present. Teaching them how to be smarter, unique, brilliant and beautiful people. On behalf of all the loving parents, we wish you plenty of more great achievements. No matter where you go now, please remember: stay beautiful people, follow your dreams and make them a reality."* Mr Andrieu-Guitrancourt

*"We have a lot to be thankful for and a lot of people to thank (teachers, fellow students). All played a role in shaping the person my daughter grew into: bright, creative, inquisitive, outgoing, extremely confident. An all round beautiful human being. As parents, we cannot be more proud."*  
Mr Friedman

## Word of advice

"Wherever you go, go with all your heart."

"Always put yourself forward."

"Remember the world is huge. Never restrict your life experiences to one or two countries. Live around the world as much as you can."

"Life is not a Race. Make sure you take time off of your education, your career and go travelling."

"Don't compare yourself to anyone else. Live your life the way you want to live it."

"Find joy even on a bad day. Remember you can always restart your day, your week, your year whenever you choose to."

"Think of work as something that supports your life, not the other way round."

"Ground yourself in reality."

"Really enjoy the next step in your journey."

"It's not so much of what you have done, but who you are."

"Healthy lifestyle is the most important."
